The gloom that has for days pervaded the headquarters of the Majors managers is deepening, and, in fact, a regular pail has settled down in the neighborhood of the Millard. The feeling of distress is plainly manifest in the countenances of candidates, managers and birelings, and is even finding expension in markets.

Hand the list evening paper contained this evening the following:

"We notice our name heading a list of business men published in the various city papers, which prompts us to state that the same is done wholly without our consent or authority. We are not mixing business with politics.

"Lincoln, October 25."

"Please drop the name of Paine, Warfel & Humstead from the business men's list as published yesterday.

"It was placed in the list evidently through a mistake.

"PAINE, WARFEL & BUMSTEAD."

"Lincoln, October 25." pression in words not spoken in whispers. There is disaffection in the ranks of the workers right in headquarters, and the house is divided against itself. The inevitable fall is acknowledged, and the managers are now trying to shift the blame for defeat from their shoulders to those of others. The principal factor that has brought about this state of affairs is admitted by all to be the vulnerability of the gubernatorial candidate. but many other contributory causes are alleged by the managers. It is right here that the rub comes in, and the way that some members of the committee are rubbing it in on their fellow workers is enough

to make an outsider smile. Chairman Morrill has not had things all

free distribution to that paper in Omaha and other doubtful constituencies. While we doubt very much the wisdom of the committee's action in distributing a notoriously 'scab' newspaper and bitter enemy to organized labor in such a strong union town as Omaha, we refer to this incident merely to show that we spoke the truth when we stated that that sheet espansed nothing that there wasn't any money in The News is not at all sore because the committee is not purchasing any newspapers committee is not purchasing any newspapers from it, for the reason that its own employes and not the employes of the committee are editing the paper and keeping it out of the mire into which politics necessarily drags those who go in fer it strongly.

ANYTHING TO SAVE TOM. Another little matter that is causing dissension in the state committee is the covery of a plan to trade off legislative can-didates for votes for Tattooed Tom. There are men on the committee who utterly fuse to be parties to this deal, and so trouble is heaped upon heap. When the plot was broached to one of the members he throw up his hands and declared that before he would be a party to the scheme he would resign from the committee. It was then give eut that if the deal did not go through there would be no more use in working for the election of Majors, and the committee might as well quit scheming for him and devote its energies to securing the election of a republican legislature. This plan has impres number of members of the committee favor-ably and it is believed that it will be carried out, even if instructions have not al-ready been sent to the chairmen of the county central committees throughout the state. The republican newspapers in the country towns have evidently been let into the deal, for almost without exception they have failed this week to contain matter favorable to Majors, but have been full of appeals to elect the legislative ticket. Away down deep there is said to be some-

thing more back of the gubernatorial-legis-lative deal. It is rumored that a gentleman who is a candidate for the senatorship has served notice on the committee that he does

HELPS NONE AND HURTS ALL. The effect of the alleged Business Men's sociation on the jobbing trade of Omaha being seen more and more every day.

The Springfield Monitor says:

A traveling man for a wholesale grocery house in Omaha who makes this territory says that he is reasted all along the route by merchants on account of the firm he represents having signed with the Business Men's association of Nebraska to try and bolster up Tom Majors for governor.

The Blair Pilot, republican, devotes nearly column to the business men's comoine

And now it is that numerous smooth-tongued, sife-tiled gentlemen from Omaha are being sent abroad over this country to tell the common herd how to vote. These men are the paid agents of the bankers association of Omaha, sent out through the country to divert the votes of the people from expressing their own honest convictions to a support of the edicts of Wall street. These patriotic people are exhibiting a most intense interest in the dear people just now, as they are about to cast their votes, and they will appear at every cross-road with honeyed words and boodle in their pockets in try and make the farmers and others believe that black is white and white is black. Do not be deceived by these paid And now it is that numerous smooth pockets to try and make the farmers and athers believe that black is white and white is black. Do not be deceived by these path manipulators nor let them work you. Give them the cold shoulder at every turn; then, from opinions formed in the seclusion of your own homes and by consultation with your neighbors—men whom you know and who have no interest in deceiving youver homest sentiments, whatever they may be, with the full assurance, that the country will still be safe. The man who wotes his own honest convictions, without permitting any one to bribe or browbeat or seduce him into changing, will best encourage party purity and good government in country, state and nation.

But this is not all, Watch the fellows in your own country. The powers of darkness are being invoked by the boodle gang in this county to corrupt veters and to change the sentiment of honest mon. These men are republicans for revenue and political prestige only and they cannot consistently hold the party lash over anybody. Honest voters will not be sidetracked by the trick-stry and treachery they represent.

The three or four men who seem to have taken the lead in the organization of the alleged business men's association at Lincoln stand convicted of further frauds in making up the list of members as published in the B. & M. ORIGIN OF THE FIRE. MULLEN, Neb., Oct. 26.—(Special Telegram.)—The fire started Sunday afternoon on the road between Whitman and Pullman postoffice. A man about a mile from the road saw the fire almost as soon as it started in a little bunch of hay beside the road. At the same time he saw a man drive a team away from there with the horses on the run. Other men were in the neighbor-hood and came in from four different directions, and they saw no other person in the neighborhood of the fire. T started in about the same neighborhood Monday and swept east at a furious rate, taking everything in its path. Thousands of tons grant rates, amounted to nothing, after a session which lasted all day. The object of the meeting was to arrive at an agreement regarding the rate and amount of commissions to be paid on emigrant business. The failure of western lines to arrive at an agreement with the Soo line, which was more favorably disposed than other trunk lines, leaves but small hope that the cammittee of the western lines, which is to leave Sanday for New York to attempt some arrangement with the trunk lines on this matter, will arrive at any conclusions with the latter lines. This will leave the western lines the one resort of going to war with the Canadian Pacific over the emigrant business, which that road seems of hay were consumed, two men were burned to death about nine miles north of town while trying to back fire to save their homes. one of spite work. The county is thoroughly aroused, and if the party is found there will

be short work made of him. RAILROAD PROPERTY ESCAPES. So far as could be learned from the general manager's office of the Burlington the prairie fires now devastating the northwest portion of Nebraska are confined to the territory between the lines of the Burlington and Elkhorn systems. Mr. Loomis stated that he had not received any information that would indicate that the property of the Burlington had been injured in any way by reason of the fires now raging and thought if the tracks had been touched at any point along the system he would have been so in-

At Elkhorn headquarters the same condition of affairs was met with as at Burlington headquarters, the general impression being that the fires were confined to the southern

portion of Cherry county.

"None of our property on the north of Cherry county," said an official of the Elkhorn. "has been reached as yet and what progress the fire is making we cannot tell, as the stations are wide apart in that locality and it would take a day or two to hear from the sparsety settled districts. My impression is that the fires are hearer the Eurlington tracks than the Eikhorn."
